1 Expert Invertory api

I have tested the Expert Inventory api and they are working fine.

2 Plexaar$_i$$ndividual_userapi$

I have tested the above api still the customer api is not working.
eventPermissions/updateEventPermissions (it is not updating)
RoleEventPermissions/addNewRoleEventPermissions (error 404)

3 Expert industries

I have import the data from live expert to stagging expert included their description,Workflow etc
